Dear Water Customer,

Your water meter must be replaced. There is no charge for the meter replacement for the residents of St Clair Township. The Department of Public Works (DPW) will be replacing all existing water meters to an upgraded radio read system. DPW will need access to your water meter located inside your house. The water will be shutoff during this upgrade and will only last several minutes.

A few benefits to the new water meters are as follows:

- It eliminates the DPW from entering your yard to read your water meter. The water meters can be read remotely
- Each water meter will store 96 days' worth of data and can help identify high usage issues within your house and or business.

Please contact the township office at 810-329-9042 or email Deputy Treasurer/DPW Kathy Bacon at [utilitybilling@stclairtp.org](mailto:utilitybilling@stclairtp.org) to schedule an appointment. Installation appointments are available Monday-Friday 8:30am to 3:30pm. DPW lead Dan Gerstenberger can be contacted at [DPW@stclairtp.org](mailto:DPW@stclairtp.org) with any further questions.

If you have already scheduled a replacement for your water meter, please disregard.
